

Before Christ Comes

All these soul-dead "people" who are working to establish a selfish new world order (with a *Great Reset*) in our humanity, with total control over all (except themselves) *freely masoned* up and counting themselves among the "elite" – where do they go when one day they have to leave the material body and thus realize that there are indeed souls, since they are now such themselves? Very probably to a hell! That means that they remain here, recycled in the satanic world *freely masoned* by them, so to speak. They actually dig their own grave. To the others access opens to one of the many other dimensions of the creation, which were invisible to them until then. Worlds in which love, compassion, benevolence and acknowledgment prevail.

Christ's return

Over the past 2000 years and increasingly today, more and more people are losing faith in Christ because he has still not returned. Did Jesus lie? Was he mistaken? Has his return been successfully hindered from somewhere? Or were we mistaken? Did we misunderstand his words? Perhaps he came back and we did not recognize him? Did we have a wrong idea of what form he would come back in? A Gnostic scripture *Pistis Sophia*, hardly taken seriously by our theologians, claims that after the crucifixion he came back to his disciples as an incorporeal entity to teach them for 11 years. And who were we expecting, actually? Jesus or Christ? Are they identical, or was Jesus a messenger of Christ?

And when will it come? Several predictions foresee a third world war in the near future. This war is to end when rather suddenly a pole switch will take place, with an enormous reshaping of the earth. THEN there will be a new start, but in a completely different way than the one, of in Klaus Schwab's megalomaniac dreams. Then, only then, will Christ be with us again. Before that, it will perhaps not be possible. Does the WEF want to take manipulate us with a "new start" in their sense, before the right one can come?

In my writing [Creation Betrayal](#) I assume 12 dimensions in the creation, following Dionysius Areopagita, who reports about groups of three times three hierarchies ordered over each other – hence nine – and if we then count "our" three to it, we come to 12. According to this, there should be nine dimensions above us, which are unknown to us now. It is impossible that these are "empty". There will have to be life forms – beings – in them also. Actually "higher gods." Our "gods" are Anunnaki (Enlil/Yahweh, Enki/Lucifer) created by "higher gods", who interrupted a tradition (the "murder of the gods", page 22 in that text) to present themselves as gods. They then described the inhabited higher dimensions as bad, populated with evil beings in order to valorize themselves in comparison. In my intuitive representation in the text, I see Christ as an entity in the upper regions above the "breaking point" and Jesus as a messenger whom he sent to us in the lower regions. The supreme creator god in the upper regions is El Elyon. The most important step of all in the creation is to heal this breaking separation and to connect the two dimensional regions again. Then Christ comes again! Or maybe first again a messenger?
